## GLENDALE OFFICERS FIRE AT PAIR OF POSTAL BANDITS

Two Try to Enter Postoffice,  
Threaten Policeman, Escape  
In Running Gun Battle

POSTAL bandits were foiled early today by Patrolman C. B. Anthony of the Glendale police force when he gave battle to two young men caught in the act of trying passkeys on the rear door of the postoffice, 124-126 North Brand boulevard.

When the officer saw them at 2 a. m. silently working away at the door in their vain endeavor to get the small amount of money and stamps that are carried in the office, he slipped upon them and as he was about to place them under arrest one whirled around with a nickel plated revolver and threatened to shoot.

Officer Anthony opened fire on them in the running battle which followed through the Pacific Electric yards and warehouses on Maryland avenue. Ira J. Herbert, principal of the Glendale Patrol and Fire Dispatch, and H. H. Silles, manager, who were eating lunch at the Crown Cafe, nearby, joined in the chase.

Earlier in the evening someone tried the rear door of the postoffice, according to Everett T. Holmes, who is in charge of the four clerks on duty until midnight. At 9:15 o'clock Detectives Geo. Delgado and Geo. Herda were called to Colorado and Adams street, someone seeing a "run totem" in the vicinity. All of which leads to the conclusion that a determined effort was made by bandits to rob the postoffice, and they were simply biding their time until everything was quiet.

Descriptions of the men were filed on police reports this morning, one man being about 5 feet 6 inches in height and wearing khaki pants, leather puttees and a black hat. The other man was a little shorter and wore a dark coat and cap.

But the policeman was on his beat and the patrolmen were in the immediate vicinity to aid him. In view of the fact that an effort was made last week to wreck and rob a Southern Pacific mail train in this vicinity, Captain D. Ripley Jackson, postmaster, is making strenuous efforts to get needed protection for the postoffice.

## Today's World News In Brief

(By International News Service to Glendale Evening News)

**E. H. SHAUGHNESSY DIES OF HURTS IN THEATRE CRASH**  
WASHINGTON, Feb. 2.—Edward H. Shaughnessy, of Chicago, second assistant postmaster-general, died in Garfield hospital this morning from injuries received in the Knickerbocker theatre disaster here Saturday night.

**EXPECTED RESIGNATION OF ITALIAN CABINET COMES**  
ROME, Feb. 2.—Premier Bonomi and the entire Italian cabinet resigned today. The resignation of the cabinet was expected, due to the growing hostility in parliamentary circles during the last week. The resignation of the cabinet may have some effect upon the forthcoming international economic conference at Genoa as Premier Bonomi was in charge of the preparations.

**W. D. TAYLOR, MOVIE DIRECTOR, MYSTERIOUSLY SLAIN**  
LOS ANGELES, Feb. 21.—Shot down while writing at a desk by a mysterious assassin, William Desmond Taylor, well known motion picture producer and director, was found dead today in his bungalow in the Westlake district. Death was caused by a bullet wound in the back, just below the left shoulder, according to the police. Taylor, who was 50 years old, and wealthy, apparently was killed between 9 and 10 o'clock last night. The body was found today by a colored servant when he reported for duty at the house. Police detectives who first reached the scene reported that death was from natural causes and it was not until nearly an hour later when an undertaker was removing the body that the bullet wound was found. Additional officers immediately were dispatched to the house and a comprehensive investigation was begun. The bullet wound caused an internal hemorrhage and Taylor evidently died a few minutes after being attacked. Detectives questioned neighbors, who stated they heard what apparently was the report of the revolver shortly after 9 p. m., but at that time believed it was caused by an automobile. The police immediately began search for Edward F. Sands, former secretary of Taylor. Robbery was not the motive for the murder, it was announced, as officers found \$78 in the pockets of the slain man, as well as a large amount of jewelry in the house. Taylor's revolver was found in a drawer of the dresser in his bedroom on the second floor of the pretentious house. It had not been discharged and none of his personal effects had been disturbed. The officers reported they are confident that revenge was the motive of the mysterious slayer. The police records state that when Taylor went to England a year ago on a business and pleasure trip, he left Sands, then his secretary, in charge of his personal affairs and when he returned he reported to Detective Sergeants Herman Cline and E. R. Cato that Sands had robbed him of money, jewelry, clothing and a valuable automobile. A felony warrant was issued for Sands and the police say he never was found. ## SELLS HOME, STARTS ANOTHER, SELLS THAT; AND IS BUILDING AGAIN

T. H. Addison, one of Glendale's many active builders, is a staunch believer in the city's claims that a new building record will be made in 1922.

After selling his home at 130 North Belmont street several weeks ago he immediately began the erection of a dwelling on his lot at 134 South Cedar street, where he expected to make his future home.

The house was little more than half completed, however, when he was induced to sell to Samuel W. Cooper, a recent arrival from Chicago.

In order to keep a roof over his head the contractor is now making plans for the early building of a new residence at 130 South Cedar street.

## DEPARTMENT STORE IS PROPOSED IN NEW BUILDING

E. H. Kerker, Representative of  
New York Business Men,  
Tells About Plans

Four New York wholesale and retail dry goods merchants have completed tentative plans for the establishment of an elaborate department store in the proposed Kelley building on North Brand boulevard, between Wilson and California avenues, according to an announcement just made by E. H. Kerker, local representative of the merchants.

The entire lower floor of the new building, giving 4000 square feet of floor space will be furnished with elaborate fixtures according to the plans of the merchants.

Freeman McG. Kelley, owner of the building, announces that the contract for the construction of the building will be granted within the next few days and construction started immediately following.

Plans of the building were altered by Mr. Kelley to meet the demands of the merchants who desire to install a spacious mezzanine floor.

Their plans also called for the latest design in show windows which will permit persons to see their displays from all angles and will allow (Continued on Page 4).

## ASSERTS P. E. FARE CHANGES 'SOP' TO PUBLIC DEMAND

City Manager W. H. Reeves,  
in Talk to Thursday Club,  
Tells of Rate War

General dissatisfaction against the Pacific Electric was expressed yesterday afternoon in the Tropic City Hall by members of the Thursday Club in an open forum.

City Manager W. H. Reeves was introduced by Dr. Jessie Russell as "the person who would explain all the things we don't know and tell us all the things we should know about civic affairs."

Mr. Reeves declared that he had come to talk as a plain public servant and to ask for help in some public problems.

"I know you women will realize that the easiest thing to do is to do nothing," declared Mr. Reeves, "but that isn't what we want to do. You want energetic city officials who will force public matters to the front and get the very best advice they can."

Not "Proper Defence"

"The railroad commission is acting upon the theory that what the state of California wants is a regulated monopoly," declared Mr. Reeves. "I would like to have them show me on the statute books where the people had ever demanded a regulated or any other kind of a monopoly."

Discussing the recent hearing Mr. Reeves admitted that he might have spoken without proper deference to the "august" body, but said he failed to feel the slightest respect for them in view of their attitude and actions. He declared that the net result of the meeting so far has not been very much and stated that the few changes in commutation rates were merely "a sop" to public demand for a complete readjustment of fares on an equitable basis. He mentioned the difference between the fare to Hollywood and to Glendale and remarked that Glendale citizens got the shorter ride for two and one-half times the price.

Following a report by Dr. Russell on the recent county planning conference at Pasadena several questions were asked by members of the club on civic affairs.

## AUTHOR TO BUILD ATTRACTIVE HOME

H. W. Fairbanks Plans to Spend  
Fifteen Thousand on Home;  
Comes Here From Berkeley

Construction of the \$15,000 residence of H. W. Fairbanks, eminent author, geologist, and geographic authority, began yesterday at Tenth and Grand View avenue. Mr. Fairbanks is to be a permanent resident of Glendale, having moved his family here from Berkeley, where his research work on the San Francisco earthquake made him well known.

The home is to be one of the finest of the city, being constructed along the Spanish rambling design, and finished throughout the interior with the highest grade hardwood.

Mr. Fairbanks is the author of the present system of the study of geography and became nationally known after he had located the earthquake fault extending from San Francisco to the Imperial valley, a distance of more than 400 miles.

## Handball Tournament Starts Next Week

A championship free-for-all handball tournament is being arranged for the near future by athletic coaches N. C. Hayhurst and Howard Butterfield of the local high school, according to recent announcements made public by the two mentors. Entrance to the event, which is scheduled to start next week, is open to any boy member of the student body and the fact that more than 100 candidates have already signed up indicates that it will easily be the most extensive athletic attraction in the history of the school.

All five of the recently installed courts will be used in the championship play, which will extend over a period of several weeks. The tournament will be a no-handicap affair throughout, with every athlete playing from "scratch." The simple method of elimination will be used known as the "weeding" process, the survivors in both the singles and doubles events being declared the winners. The playing schedule will be arranged according to the class rank of the contestants, the Seniors first, Juniors next, etc.

Among the entrants who are expected to make strong bids for the laurels are Bob McCourt, Waldo Yard, Russell Eiffler, George Roach, Norman Beggs, Walter McManus, Newton McGillis, Tom Morgan, Wesley Aageson, Vic Colburn and Bob Lindsay.

## LOCAL SHRINE CLUB SOCIAL GATHERING LARGE SUCCESS

Los Angeles Delegation Comes  
With Band; Entertainment  
Is Thoroughly Enjoyed

Three hundred and fifty Shriners, from all sections of the United States, were royally entertained last night in the Glendale Chamber of Commerce auditorium by the Glendale Shrine club in honor of the Al Malak-shah shrine, Los Angeles. Featuring the entertainment was the introduction of a new Shrine song written by "Daddy" Silverwood, known and respected lover of the Shrine organization. The music to the song was composed by Harry Girard, prominent vocalist and composer.

The meeting will go down in lodge circles as being one of the most successful events of the local Shrine club. Short, snappy talks, wit, superior music and burlesque dancing added to the enjoyment of the evening.

Parade Takes Place

Al Malak-shah Shrine, with its band and patrol under Potentate Louis M. Cole, started the activities of the evening with a parade on South Brand boulevard.

Members of the Shrine were urged to subscribe to the fund being raised for a \$1,000,000 Shrine temple at Los Angeles. During the course of the evening, twenty-five subscriptions were received, bringing the Glendale Shrine club up to a 50 per cent quota.

Through the courtesy of "Daddy" Silverwood, the proceeds of the Shrine song written by him at the request of a leading show music house at San Francisco, will be donated to the San Francisco Shrine to finance the excursion to Honolulu, following their convention in San Francisco, June 13, 14, 15.

Autos from Glendale

President C. E. Neale, of the local Shrine club, announced last night that 200 autos will be guaranteed by the city of Glendale to form part of the excursion to the San Francisco convention. Cordial invitations are to be extended to all Shrine organizations attending the convention to visit Glendale, where reception committees will receive and extend the hospitality of the city to the visitors.

Invitation from Pasadena

A cordial invitation was extended members of the Glendale Shrine club to attend the Shrine ball at Pasadena during the latter part of the month.

President Neale announced that a semi-formal ball would be given by the Glendale club February 15 in the Chamber of Commerce auditorium. The dance will be open to the public.

Following an evening of unexcelled entertainment, light lunches were served and arguments heard by "victims" of fines imposed by the Los Angeles delegation for violation of an extemporaneous speaker's etiquette.

## Miss Dorothy McGinnis Given Surprise Party

Miss Dorothy McGinnis, daughter of Mr. and Mrs. J. J. McGinnis of 122 South Orange street, was very happily surprised Tuesday night, when she arrived at the home of Alice Carpenter, 205 West Hawthorne street, to find a jolly group of her most intimate friends gathered to help celebrate her birthday. Carrying out in clever plans, she was invited to go for a drive and with her companion dropped in to see the Carpenters, and the surprise was complete.

The evening was spent with informal dancing, the music being furnished by the "Jazz-coasters," namely, Longley Meredith, Al Rattray and Mr. Bengel. At the close of the evening, refreshments of ice-cream and cake were served by the hostess, and the honoree was again surprised by a handsome birthday cake, with seventeen candles lighted.

Those present were Dorothy McGinnis, Marguerite Eckles, Charlotte Winsel, Mary Young, Bernice Huskins, Vivian Anderson, Helen Bredenburg, John Richardson, Hal Sprague, Philip Wernette, Victor Colburn, Tom Griffith, Loren Patrick, and the hostess, Alice Carpenter, who was assisted by her mother, Mrs. Mary H. Carpenter.

## Mrs. Frank Shaw Is Speaker at Doran

A large number of visitors and members attended the regular meeting of the Doran street Parent-Teacher association, of which Mrs. A. H. Brown is president, and which was held yesterday afternoon at the school building.

After a short business meeting and salute to the flag the speaker of the afternoon was introduced, Mrs. Frank Shaw of Los Angeles, who gave an address on "The Story of Life and How to Tell It to Children," which was followed by discussion.

Announcement was made and invitatin extended to those present to attend the opening of the Tuesday Afternoon club to be held at Masonic Temple next Tuesday, at which time Dr. E. C. Moore, president of the southern branch of the University of California, will speak on "The Pan-Pacific Educational Conference."

## PROPOSES TO CREATE ORCHESTRA HERE; 40 MUSICIANS

John Marquardt Makes Plans  
to Start Organization; Aid  
of People Expected

A municipal orchestra for Glendale is announced as a reality today! John Marquardt, eminent violinist in both this country and foreign nations where he was connected with the great metropolitan orchestras as concert master, violin soloist and assisting conductor, will endeavor to create an orchestra of highest repute in Glendale.

He is starting rehearsals on Tuesday of next week in the Glendale Union High School Arts building, room 124, at 7:30 o'clock. These will be regular and all musicians playing orchestral instruments who are fairly advanced will favor themselves by appearing there with instruments and music stand.

Need Forty Members

The idea of the undertaking, according to the music master, will mean the advancement of things musical in this city and he expects to recruit about forty members for the orchestra. Of course, he does not know all who play well, but it should bring forth the best talent this city affords.

It is easily understood that a new organization such as this cannot be molded into shape overnight, but if the enthusiasm and knowledge of Mr. Marquardt will aid in bringing more harmony to Glendale, his home city, he will be able to demonstrate the powers of direction in three months' time.

Expects People to Aid

Although there are no funds at hand, he is optimistic enough to believe that the citizens will get the money in time. Meanwhile, he will advance that which is required for the music.

No charge will be made for memberships and all that will be required, he says, is good work.

Any questions pertaining to this matter will be cheerfully answered by Mr. Marquardt at his home, 110 Burchett street, corner Brand boulevard.

Other short talks will follow by interested persons.

## MASS MEETING PLANS TO INCREASE BY EIGHT MORE SELECTED CITIZENS CITY SEWER COMMITTEE OF TWELVE

Council Will be Asked to Put Additional People  
On Investigating Board; A. H. Koebig, Engineer,  
Gives Information Concerning Sludge System

AFTER a public hearing last night by the city council on sewage disposal plans, in which A. H. Koebig, widely known engineer, was the principal speaker, a mass meeting was held and on motion of Attorney Mattison B. Jones, the citizens present voted that the present sewer committee of twelve be increased by eight. Twenty-five names will be submitted to the city council by Mr. Jones, it is presumed, for their selection.

The original sewer committee was named by Attorney Dwight W. Stephenson more than a year ago when he was president of the old board of trustees.

Only the highest words were given those who had served on the committee and it is with the thought that this body shall bring in a solution satisfactory to the public at some later date, preferably after the activated sludge system is tested on the Verdugo Woodlands unit of the city's sewers.

During the council meeting, the session having been transferred from the city hall to the high school auditorium to accommodate the 500 people in attendance, each member expressed himself as wishing to do that which the majority of people desired.

Mayor Spencer Robinson presided, Councilman Sam A. Davis, C. E. Kimlin, A. H. Lapham and Dwight W. Stephenson were present as well as most of the city officials.

Tells of Sludge System

Mr. Koebig was introduced by the mayor as an eminent authority on the subject of sewerage and sewage disposal and he immediately launched into a long, yet interesting dissertation of the activated sludge system which his firm is installing in Burbank.

In 1912 the activated sludge process was first developed and since then there has been 200 installations in the United States, as well as in European and South American countries, the largest being Milwaukee, Wis., which has spent hundreds of thousands of dollars in perfecting the system," according to Mr. Koebig. Houston, Tex.; Urbana, Ill., and Riverside, Ill., are other cities where the system has been successfully installed, he told those present.

Objections to Others  
All other systems carry with them the nuisance of offensive odors and flies, the engineer said, and seriously advised against the installation of a patented sludge system which agitates the sewage during the process of chemical reaction when aeration is turning the sulphates into nitrates or oxides.

It will take a year and a half for Glendale to prepare the plans for its sewage system, Mr. Koebig stated in reply to questions, and this drew forth varied appeals for "slow action." Attorney W. E. Evans, who was very active in the organization of a committee to combat the Halne estate site for a sewer farm, read the report of an interview between At-

The first mentioned Mr. Ferry has just completed the pipe line system for an activated sludge disposal plant for Gastonia, N. C., a city of 35,000, and he has seen it in operation for the last six weeks. He declares this system not to be an experiment, but installed generally by eastern cities.

Gastonia's sewage disposal plant is located in the heart of what is known as Mill Village and effluent drains into the little river which provides power for the mills.

"There is no odor connected with the plant," says Mr. Ferry, "and a person can drink the water therefrom."

## SEWER PROBLEM IS UNDER DISCUSSION AT GATHERING

Expert Engineer Gives Number  
of Facts Upon the Sludge  
System of Disposal

(Continued from Page 1.)

torney D'Orr and Engineer R. C. Goul-  
die of the state board of health.  
Attorney Mattison B. Jones made  
Mr. Koebig the subject of a severe  
grilling, in which the veteran engi-  
neer refused to answer some of the  
questions. In justice to the latter,  
it was stated that he had not seen the  
proposed site and knew nothing of  
previous considerations.

### Has Not Seen Site

It developed that there is a dis-  
crepancy between what Engineer  
Gouldie of the state board of health  
has led the city trustees to believe  
and what he is purported to have  
told others and Dr. Jessie A. Russell  
declared that he should be asked to  
put his statements in writing in fair-  
ness to all.

In an impassioned plea against the  
location of a sewer farm in any sec-  
tion of the city, Attorney Jones  
stated that he believed the only rea-  
son the site suggested had been put  
forth was because of gravity flow.  
He asked if there was any member  
of the city council who would invest  
in property within a quarter mile of  
the place.

### Different Distances

Councilman Lapham shouted,  
"Make it two and one-half miles."  
Mayor Robinson added, "Let's  
make it five miles so as to include  
everybody!"

Again Mr. Jones launched forth in  
his plea, saying:  
"I do not want, myself, as a citi-  
zen, to see this city involved in a con-  
troversy like this which will literally  
tear it to pieces, a city which I have  
learned to love!"

"As a citizen and a taxpayer," he  
concluded, "I earnestly ask this  
city council to go slow, and I speak  
for south Glendale, east Glendale,  
north Glendale and west and north-  
west Glendale when I say that the  
majority of the people will not vote  
for a sewer farm in any man's back  
yard, or front yard in the city of  
Glendale." This peroration won a  
great hand and caused Mr. Hahn,  
owner of the property in question,  
to arise and remark that the meeting  
reminded him of an amateur vande-  
ville show he attended in the city re-  
cently where each act was paid in ac-  
cordance with the applause. He  
thought that it was expressive of the  
audience's approval.

### Others Who Spoke

Among the many others who  
spoke were John Robert White, O. M.  
Newby, Mrs. E. H. Botsford, C. E.  
Stanley, Frank H. Olmsted, Mrs.  
Mattison B. Jones, W. M. Windham,  
and Attorney John H. Foley of Los  
Angeles, who owns property in the  
northwest section. His Mexican  
"bala" story won a hearty laugh  
laugh from those who were not too  
sleepy to listen.

Councilman Davis told the people  
how he and Mr. Kimlin had accident-  
ally discovered the site suggested  
and positively denied that the  
"fathers" were trying to slip any-  
thing over the people.

"We couldn't do it if we wanted,"  
he told them and so did Dwight  
Stephenson and A. H. Lapham and  
C. E. Kimlin and the Mayor. But  
the latter did threaten to slip some-  
thing over any hecklers during Mr.  
Davis' discourse.

Councilman Stephenson acted in  
the capacity of a pacifier and brought  
the audience around to a point where  
it was ready for the council to ad-  
ourn and the resolution was passed  
for the increased committee to con-  
tinue with its studies of sewage dis-  
posal.

ing presentation of the class to the

at the Taylor residence was attributed to Sands by the police. Among the witnesses questioned by the police during the morning were Mabel Normand, Edna Purviance and Douglas McLain, prominent film stars. Miss Normand admitted having visited Taylor's bungalow in the early evening yesterday to discuss a new production and that he had escorted her to her automobile at the curb shortly before 9 p. m. Taylor was to telephone to her later in the evening. Miss Normand said he did not do so. Miss Purviance, who lives in a house adjoining Taylor's bungalow, returned home about midnight and saw a light burning in Taylor's study. Douglas McLain and his wife, who live in the same district, stated they heard the shot fired shortly after 9 o'clock. They thought at the time it might be an automobile exhaust. They described a strange man whom they saw in the street. Taylor was a bachelor and had never married, living alone at the bungalow.

### SEVERE SNOWSTORM GRIPS FOUR NORTHWEST STATES

MINNEAPOLIS, Minn., Feb. 2.—Four northwestern states today are in the throes of a severe snowstorm which is crippling telegraph and telephone wires, and causing delay to railroad transportation. Between Minneapolis and Duluth all telephone and telegraph wires are reported down, and in Duluth a snowfall of twenty-four inches has caused as having fallen there within fourteen hours. At Mitchell, S. D., one of the worst storms since 1881 held that city in its grip and loss to livestock on ranches in that vicinity was said to be heavy. On a branch of the Soo line railroad in North Dakota, a passenger train with seventy-five passengers aboard is stuck in a snowbank and rescue crews are at work today digging them out. High winds and heavy snows in northern Wisconsin have delayed trains and reports from that territory indicate decided cold weather. Orders were issued today to owners of all downtown buildings in Minneapolis by the city building inspector to clear the roofs of snow.

### ARBUCKLE JURY SO FAR FAILS TO REACH VERDICT

SAN FRANCISCO, Feb. 2.—Another "hung" jury in the manslaughter case of Roscoe ("Fatty") Arbuckle seemed probable today. Unable to agree after more than five hours' deliberation, the jury was locked up over night and today resumed its deliberations at 10 o'clock. Not a word has leaked out of the jury room regarding the ballots which have been in progress there since 3:44 yesterday afternoon. In the first trial fairly authentic information came by some "grapevine" channel from the jury room, but only vague rumors were afloat today as to the standing of the jury. Henry Ottenberg, an alternate juror, who was discharged when the twelve original jurors retired, expressed the belief that the count was ten to two for acquittal. This seemed to be the prevailing belief, although Assistant District Attorney Leo Friedman was inclined to believe the division was more equal.

—By Gil A. Cowan—

RESIDENTS of Glendale coming from staid cities of the east are prone to permit the affairs of this growing community to pass by without realizing the importance of their little "say so" in plans for civic betterment. Yet it is their experience as expressed in public which will make this city one of the most ideal insofar as man-made environments are concerned. Already the Creator has provided Glendale with an advantageous climate, probably not any better than hundreds of other places, but surely equal in most respects. Indeed, this sheltered nook is so accessible and congenial that every one of its 23,000 citizens are boosters.

And a mighty good way to boost is to lend your aid to everything that is going to make for a greater Glendale. When the Chamber of Commerce, or any one of the hundred organizations looking toward the moral, physical or mental betterment of the city, call for aid, may it be given in unstinted measure. During the Liberty bond drives—campaigns to provide funds for war—the slogan was "give until it hurts." What wonders could be accomplished if the same spirit permeated peacetime pursuits!

While giving our attention to a Greater Glendale, it is wise to suggest that a share of your thought be turned toward Glendale industries. The best advertisement for additional enterprises is the solid support of those which are here.

The Glendale Evening News believes in building Glendale by bringing to the attention of its readers the activities of local merchants. Their advertisements bespeak their ability to serve you.

Among the organizations whose work is commendable may be mentioned the Parent-Teacher Association which bind together the filial interests of the populace at large with the work being conducted in the educational institutions of this city.

Better understanding is arrived at by knowing with whom you are dealing or depending upon for service. And the teacher's life is one consecrated to service. Really, delightful affairs are planned both for the children, their mothers and fathers, and the teachers, too, through these friendly associations. An active participant in any such organization will gain greater benefits than can be told in ink.

Trust to the sporting writers to fill their columns. After football is well out of the way and the basketball season is well under way the old boys who make their living "digging up the dope" on the major and minor leagues rattle the family skeletons until the "bugs" become enthused over the prospects of the coming season. It's a great life if you don't weaken, but the calcium glare soon finds other stars on which to flare if past performances are not up to par.

Accomplishments of the Washington conference on disarmament are now revealed to the public.

First of importance is the naval treaty between the United States, Great Britain, France, Italy and Japan.

Then there is the treaty between the same powers abolishing poison gas in warfare and outlawing submarine attacks on merchant vessels.

The third proposition is the settlement of Shantung between China and Japan.

Great credit must be given the Orientals for the latter, but the limiting of submarines and poison gas is just another "scrap of paper." A nation's word of honor is only that of men.

The limitation of armaments, contained in the first treaty, is a good measure as far as it goes and for that alone Mr. Harding is deserving of praise for calling the conference.

### Enjoy Student Recital at Music Academy

The student recital last night at the California Academy of Music on North Brand boulevard was acclaimed by those present as a most remarkable demonstration of the modern methods of musical instruction and the performance of the youngsters was declared a revelation to teachers and parents alike.

These pupils from the juvenile classes of Miss Elsa Breidt, instructor in pianoforte, and Miss Marjorie Vorhes, violin, instructor, disclosed the results obtainable when a complete harmony exists between pupil and teacher and emphasized the importance of instruction by teachers possessed of broad musical knowledge and pedagogic ability, together with that sympathetic understanding which enables them to bring out the latent musical knowledge in the child.

The students on the program included Mary Jane Neel, Billy Brower, Dorothy Levey, Billy Godfrey, Evelyn Apfel, Dorothy Godfrey, Rosanna Ruggiero, Beatrice Smith and Catherine Wood.

At the conclusion of the students' recital a few delightful numbers were rendered by the faculty, including Miss Elsa Breidt, piano; Miss Marjorie Vorhes, violin; Mrs. Virginia Freeman, vocalist, with Mrs. Hernandez Lee accompanying and Miss Helen Sayre, vocalist.

When you hold up a hand mirror to look at the back of your head, never hold it so that your face is reflected from the large mirror back again to the hand mirror, or your first child will be cross-eyed, is a superstition.

## NEW AUTO BUS IS GIVEN TRIAL BY CITY OFFICIALS

Fageol Bus, Brought From the North for Demonstration, Defeats P. E. Car

Broad daylight did not prevent Mayor Spencer Robinson, City Manager W. H. Reeves, members of the city council and other prominent citizens yesterday afternoon from enjoying a joy ride.

Spectators, who paused to gaze at the big twenty-three passenger French gray bus whizzed by, inquired if the city officials were dissatisfied with Glendale and moving away en bloc.

It was a demonstration of a brand new Fageol bus brought to Glendale for the consideration of the city council in the plan to get a fleet of twenty busses because of the Pacific Electric's raise in fares.

A race was staged with a Pacific Electric car and the bus easily left it four blocks behind between Park avenue and San Fernando road.

Among the features of this bus is its convenience to the ground, the running board being only a foot above the street and the floor of the bus only about six inches above that.

**Expect Easy Riding**  
On account of this closeness to the ground, the manufacturers believe that it will ride easier and avoid any tendency to sway from side to side. They called attention to the fact that a tire blow out on a high bodied bus had a tendency to move the center of gravity to the extent of causing an accident.

This bus and its merits were discussed by F. R. Fageol, Claude Fageol, Will Fageol and R. C. Smith from Oakland and Henry Haydenfeldt and Sid Delancy of the Ruddle Motor Sales company of Los Angeles.

The motor is a Hall-Scott special engine, designed by Col. A. T. Hall of Berkeley, inventor of the Liberty airplane motor. It is capable of being geared to 1800 R.P.M. and pulling the loaded bus at a speed of fifty-two miles an hour. Exceptionally large brakes enable the bus to come to a dead stop in a very few feet as was demonstrated yesterday afternoon.

**Easy Access to Seats**

The interior of this particular bus contains six seats the width of the body upholstered in changeable automobile leather. With the exception of the front seat the others are intended to accommodate four passengers. Doors on the right side of the bus provide easy access to any of the seats.

This bus made the trip from San Francisco to Los Angeles in slightly over fourteen hours, according to report, and made the San Juan grade without difficulty.

City officials announced themselves well pleased with its performance.

As this is the first bus turned out by the Fageol factory, no definite price has been quoted upon it yet but it is understood that it will range around \$7,500. Will Fageol explained that the capacity of the interior could be greatly increased by placing the driver's seat over the enclosed engine without greatly increasing the cost.

a twenty foot recess along the fifty foot front.

It is estimated the construction of the building will cost approximately \$25,000.00.

The merchants forming the new corporation are Louis Kanner, L. Rosenfeld and Mr. Gershen, all of New York City. They have returned to the east to dispose of their interests and to arrange for the shipment of their imported stock to this city, according to Mr. Kerker.

**Two \$10,000 Homes**

"They plan to return to Glendale within the next three weeks and have already made arrangements for the erection of two \$10,000 homes on lots already purchased.

The company will inaugurate a campaign for the suggestion of a name for the store. All women of Glendale will take some part in giving the store a name according to present plans.

The second floor of the Kelley building will be devoted to four three-room and four two-room apartments according to present plans.

## I'm Coming Back to Glendale

Fifteen years ago I bought an abandoned vineyard on Central Avenue from L. C. Brand, and laid Glendale Place into Patterson Avenue, Burchett Street, Pioneer Drive and other streets. I sold lots for \$275 to \$450 each. Now they're worth from \$1,500 to \$5,000.

There were big possibilities in Glendale then—but there are bigger ones to-day, for now it is certain that a splendid, prosperous city is in the making. Glendale must grow—will grow.

So, I'm coming back to Glendale. I've bought two fine residence tracts—"Eagle Glen Heights" out on Broadway and "Roland Square" opposite Patterson Park on Doran Street. The same fine, present-day values and the assurance of big future increases are in these properties, just as they were in Glendale Place.

I believe Glendale people know Glendale values, so I have arranged a PRE-OPENING SALE for their benefit both at "Eagle Glen Heights" and at "Roland Square" on Sunday next, February 5. Prices and full particulars will be in Saturday's newspapers.

Whitaker, a native of Pittsburg, Mass., and proprietor of the Broadway Pharmacy, East Broadway and Kenwood, entered the drug business as an apprentice in March, 1888, making his experience as a registered druggist cover a period of 34 years. Employed ten years in stores in Massachusetts, moved to Portland, Maine, was in business there for six years, and came to California in 1904. After spending eleven years in and around Berkeley, moved to Glendale and has been a resident and booster for Southern California ever since. Mr. Whitaker is exceedingly fortunate in having associated with him, his wife, who is very well known to the majority of Glendaleans.

It is Mr. and Mrs. Whitaker's aim to give the most courteous service to each and every customer, having the confidence in them to give them a part of their trade, and their motto, "It pleases us to please you," will be fully realized after a visit to their store.

The store is very pleasantly situated. The drug stock is fresh and new and a specialty is made of carefully filling prescriptions.

## "Tol'able David"

WITH RICHARD BARTHELMESS  
is a Tremendous Picture

### A PERSONAL STATEMENT

—the dramatic suspense or vivid reality of the fight in "Tol'able David"—  
—the true, lovable humanness of this story of a boy who wanted to be a man and got an opportunity of proving himself—  
—the sweetness of appeal that is in the mother-love of a mountain-mother for this boy—  
—the remarkable characterizations, the grip, the magnetic force which radiates from every reel of this splendid picture—  
—make this a wonderful show. In my opinion "Tol'able David" ranks with the greatest pictures.

## HARVEY MCCARTHY OFFERS SITES FOR HOME BUILDING

Developed Tract Here Fifteen  
Years Ago; Announces Two  
Different Properties

Fifteen years ago, when Glendale was scarcely more than a village, J. Harvey McCarthy, the well-known Los Angeles subdivider, saw the possibilities in that then little-appreciated place. He bought a tract of land, developed and disposed of it and then had his attention turned in other directions. Now he returns to his old love and celebrates it by announcing his intention to open two fine residential subdivisions in Glendale, "Eagle Glen Heights" and "Roland Square."

It was in 1907 that Mr. McCarthy had his first experience in Glendale real estate. In that year he purchased from L. C. Brand thirty-six acres on the west side of Central avenue, paying \$600 an acre for it. At that time there was not a building of any kind either on the property—which was an abandoned vineyard—nor anywhere near. But Mr. McCarthy declares he has always had a practical vision and in this venture he made no mistake. He cut up the property into building lots, put in streets, sidewalks and improvements, and readily disposed of the lots at from \$275 to \$450 each.

Today these same lots are worth anywhere from \$1,500 to \$5,000.

### Picks Names for Streets

Included in this tract are Patterson avenue, which Mr. McCarthy named for his wife, who was Miss Mary Patterson, of Louisville, Ky.; Burchett street, named for her uncle, Major D. J. Burchett, of Mt. Sterling, Ky., who won fame in the union army during the civil war, and Pioneer Drive, named for the Pioneer Investment & Trust company, of which Mr. McCarthy was president for a number of years.

The properties which Mr. McCarthy is now going to open lie in different parts of the city. "Eagle Glen Heights" is located out on Broadway, on gentle, sloping ground, part of the San Rafael Hills. It is a beautiful wooded piece of foothill land, eminently adapted for the high-grade residential subdivision which Mr. McCarthy's plans are said to contemplate. "Roland Square" is opposite Patterson park, on Doran street, in the midst of an already highly developed section of Glendale.

### Sees Big Possibilities

"I have always had the greatest faith in Glendale," said Mr. McCarthy yesterday, "and in developing his plans, and have been desirous for a long time past of returning to the real estate field here. My various interests in Los Angeles and elsewhere, however, have prevented me from following my inclination until this time."

"Glendale's remarkable development in recent years is known to everyone interested in the growth of municipalities. It is the fastest-growing city of its class in the country, and is undoubtedly destined to become one of the most important communities in this section of southern California. In my opinion, Brand boulevard has business potentialities not exceeded by any other thoroughfare in or near Los Angeles, and Broadway is also certain to develop into a high-class commercial street."

"I can remember, back in 1908, when I bought the northwest corner of Brand boulevard and Broadway for \$4,000; I am informed that \$100,000 recently was refused for it. Other business lots on the boulevard also have increased proportionately in value. At present figures, Brand boulevard frontages present the most wonderful possibilities. Compared with the prices asked for similar lots along Hollywood, Sunset and other like streets, the prevailing values on Brand boulevard are below the market, taking into consideration the growth of the population of the city."

### Western Avenue Properties

Mr. McCarthy is recognized as one of the best real estate men in Los Angeles. For years he was real estate appraiser for the State Insurance Department. He was one of the earliest to foresee the growth of Western avenue and he has always had large interests along that thoroughfare, he states. It was on his advice that Oliver Morosco, the theatrical manager, bought the site for the proposed "Moroscotown" on Western and Melrose avenues. That property, however, increased in value so rapidly that Mr. Morosco declared he could not resist the flattering offers he received, and he is now disposing of it at a very large profit.

In Mr. McCarthy's opinion there are the same expectations of future value in Brand boulevard that there were in Western avenue, and he prophesies a most flattering future for it.

## Charles B. Guthrie to Open Another Office

Real estate activities of the Charles B. Guthrie company have grown to such an extent in the Eagle Rock district, according to Mr. Guthrie, that it will be necessary to open another office in the district to handle their interests. Mr. Guthrie says, "It is my belief that Eagle Rock activities this year will duplicate the tremendous volume experienced in Glendale last year." "Eagle Rock development is increasing by leaps and bounds, which will make it necessary for us to open another office in the district within the next ten days," continued Mr. Guthrie.

## TO DARKEN HAIR APPLY SAGE TEA

Look Young! Bring Back Its Natural Color, Gloss and Attractiveness

Common garden sage brewed into a heavy tea with sulphur added, will turn gray, streaked and faded hair beautifully dark and luxuriant. Just a few applications will prove a revelation if your hair is fading, streaked or gray. Mixing the Sage Tea and Sulphur recipe at home, though, is troublesome. An easier way is to get a bottle of Wyeth's Sage and Sulphur Compound at any drug store all ready for use. This is the old-time recipe improved by the addition of other ingredients.

While wispy, gray, faded hair is not sinful, we all desire to retain our youthful appearance and attractiveness. By darkening your hair with Wyeth's Sage and Sulphur Compound, no one can tell, because it does it so naturally, so evenly. You just dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time; by morning all gray hairs have disappeared, and, after another application or two, your hair becomes beautifully dark, glossy, soft and luxuriant.—Advertisement.

Some men are too lazy to acquire the door from which to keep the wolf.
